All Hands

Modified Programs for Groups of Individuals with Disabilities

These 60- to 90-minute educator-led multisensory explorations of the Intrepid Museum are customized to meet the academic or social-emotional goals for the school or community group's visit. Program themes include, but are not limited to:

Life at Sea
Learn what it took to be one of the approximately 3,000 crew members living aboard the aircraft carrier Intrepid. This program focuses on the living conditions and wide variety of jobs that were needed for a "city at sea."

Aviation & Aircraft
Discover the four forces of flight and how an airplane flies in the sky. This program explores the Museum's extensive aircraft collection and includes a hands-on exploration of a helicopter and/or airplane.

Space
Uncover Intrepid's role in the early space program. Explore the space shuttle orbiter Enterprise and replica space capsules.

Transportation
Compare the different ways humans can travel on water, in the air and into space! This program examines the design and function of the ship, aircraft and spacecraft.

Funding is available for FREE programs for New York City schools and organizations!
For more information or to book a program, please email access@intrepidmuseum.org or call 646-381-5158.

Access Programs at the Intrepid Museum are generously supported by the FAR Fund, the J.E. & Z.B. Butler Foundation, the Joseph LeRoy and Ann C. Warner Fund, the Barker Welfare Foundation and the Frank J. Antun Foundation. This program is supported, in part, by Public Funds from the New York City Department of Cultural Affairs, in partnership with the City Council.
